Members Board of Education-Mrs Longley, Mrs. Birge.

The city election vesterday was more than usually quiet and there seemed to be a lack of enthusiasm on the part of the workers for the respective candidates for mayor and clerk, on which the principal fight was made. This quietude was due in some measure to the new system of voting which makes quite a difference with the "workers," none of whom were allowed in the immediate vicinity of the polling places. Onite little work was accomplished by buttonholing men on their way to the polls, and in this way, no doubt, many votes were changed from one candidate to another.

Around the polls the new law worked like a charm, with a few exceptions Some voters who had not taken time to read the instructions or did not care to. were somewhat confused with the new order of things, but it was probably no more confusing than having two or three ward politicians tackle him, as was the rule at former elections.

From what could be learned the new law is satisfactory and the voters did not have the trouble that some predicted. During the afternoon a number of ladies visited the polls and cast their ballot for members of the Board of

Education, fully fifty ladies in

Second ward using their suffrage. Below is given the vote as secured from the clerk's books, and we believe is nearly if not altogether correct. Some claim that Federhoof received 71 instead of 55 votes in the Third Ward, and if so judges.

TALK OF CONTESTING. There was considerable talk on the streets this morning that the election of Wm. Neville as mayor would be contested.

all who attend.

The grounds for the contest is laid on a recent Iowa decision to the effect that a man who agrees to serve in a public official position without pay throws out a bribe to the voters by so doing. It is likely, however, that the spirit of contest will die out in a day or two.

There also talk of a contest on successful candidates for members of the Board of Education, the claim being made that a number of tickets were thrown out which should have been counted. The official canvass, however. will probably decide this.

Bishop, to those who were confirmed, were such as a father would give to his child, and were full of comfort and christian teaching. The Bishop's sermon was a masterly and eloquent one and the eminent divine was listened to attentively, as he propounded the revelations contained in the Bible as proved by many heathen historians. The sermon was one which told of deep and earnest study and was greatly enjoyed by the large congregation, which completely filled the edifice. In the afternoon the Bishop administered the rite of holy baptism to three infants. Another large congregation attended the evening service and were again delighted with a powerful sermon from the prelate. Bishop Graves left town Monday noon for Lexington to make his annual visitation there and at Cozad to confirm candidates under the Rev. Robt. G. Osborn

THE CITY CITY COUNCIL.

The city guardians were all present as the regular meeting Monday night. After the usual preliminary business had been transacted the city attorney reported that he had collected and turned over to the city treasurer the sum of \$281.27, being the net amount due the city from the bondsmen of A. Ries on the basis of a fifty cents on the dollar settlement. The report was accepted as satisfactory.

The following petitions for liquor lienses were presented: Wm. Landgraf, J. C. Hupfer, Gertler & Waltemath, Also application for druggist's permit from A. F. Streitz. The petitions were referred to the judiciary committee.

A petition for a sidewalk on Eighth street was referred to the proper com

Wm. Grady appeared before the council and asked that he be allowed to settle his account with the city on the basis of fifty cents on the dollar, but wanted the time of payment extended until July. After some discussion Mr. Grady's request was granted, with the understanding that he pay the costs of suit.

T. F. Gantt, in behalf of Lester Eells, appeared and asked that a settlement with Mr. Eells be effected in consideration of the sum of \$500, which Mr. Gantt thought was about one-half of the amount sued upon. The matter was thoroughly discussed, and it appearing that the amount due from Mr. Eells was in excess of \$1,000, it was the sense of the council that settlement with him be made on the same basis as that granted other parties. The city attorney was then instructed to settle with the defendant on a basis of fifty cents on the dollar, for all principal and interest due the city; the defendant to pay costs of suit. The council then adjourned.

was done it would only be a short time until that space would be occupied. The enlargement of the cemetery is only a question of time, and THE TRIBUNE believes the sooner the work is performed the better.
